

natural feed additives

## APC add. FA 0,2%

Art.Nr. 1146

Natural feed additives for **piglets rearing**

- ✓ Better and healthier mucosa membrane
- ✓ Considerable relief of the metabolism and relief and protection of the liver
- ✓ reduction of soya
- ✓ Regulation of the pH value

- ✓ Clearly decrease of ammonia and bad gases – up to 50%
- ✓ Relief of environment
- ✓ Up to 20% less slurry

- ✓ Clearly improved immunity
- ✓ Better uniformity
- ✓ 2 – 4 % better feed conversion rate and weight gain
- ✓ More healthy animals = Less mortality

### The Concept

- APC natural additive blends consist from a mixture of special clay minerals with synergistic effects.
- We achieve high effects by special physical processing and by that a much better utilization of all nutrients.
- **Additional APC FA 0,2% includes a special combination of herbs and ethereal oils.** This combination improves the immunity The animals are healthier and more resistant to diseases.
- By using APC FA 0,2% we are able to reduce input of protein and minerals in the formulas, which leads to the relief of the metabolism and the liver
- Therefore, a reduced input of nitrogen and phosphorus over the feed causes a reduction N and P in the manure. Additional ammonia and noxious gases are reduced up to 50 %!

**Usage** 2 kg for 1.000 kg ready feed for **piglets rearing 5 - 30 kg**

***Consulting and least cost optimization of the ready feed with APC FA 0.2% you will get from us directly or from our distributors!***
