- ✓ Dry stables = less mortality
- ✓ Less medicine costs

The Concept

- The usage of carefully selected clay minerals chosen out of their synergistic effects are the basic of the product APC SPC 0,2%
- We achieve high effects by special physical processing and by that a much better utilization of all nutrients.
- By using of APC SPC 0,2% the requirements of protein and minerals can be reduced and by that the metabolism and the liver of the animals are clearly relieved.
- Therefore, a reduced input of nitrogen and phosphorus over the feed causes a reduction N and P in the manure. Additional ammonia and noxious gases are reduced up to 50 %!

Usage 2 kg for 1.000 kg ready feed for pigs

Consulting and least cost optimization of the ready feed with APC SPC 0,2% you will get from us directly or from our distributors.

package 30 kg bags or Big Bag

stability 6 months by original closed packing

producer Austria – feed mixing corp. ERES Schöllerbacher,
