

natural feed additives

APC add. HM/HZ I 0,2%

Art.No. 1419

Natural feed additives for POULTRY – young animals

- ✓ Better and healthier intestinal mucosa and absorption of nutrients
- ✓ Regulation of the pH value in the intestine
- ✓ Increased immunity of young animals

- ✓ Up to 50% reduction of ammonia and noxious gases
- ✓ Preserve the environment and nature
- ✓ Up to 20% less slurry

- ✓ Higher daily gain and better FCR
- ✓ Better health of the intestine = better health of the animals
- ✓ Drier stables – less mortality
- ✓ More uniformity

The Concept

- The usage of carefully selected clay minerals chosen out of their synergistic effects are the basic of the product APC HM/HZ I 0,2%.
- APC products are subjected to a special physical processing which results in a strong improvement of the surface of mucous membrane of the animal's intestine. The result is a far better absorption of all nutrients.
- **The APC HM/HZ I 0,2% product contains additional herbs and ethereal oils.** These combinations increase the immunity of the young animals. The animals are healthier and more resistant against infections.
- By using of APC HM/HZ I 0,2% the requirements of protein and minerals can be reduced and by that, the metabolism and the liver of the animals are clearly relieved.
- A reduced input of nitrogen and phosphorus over the feed causes a reduction N and P in the faeces. Additional ammonia and noxious gases are reduced up to 50 %!

usage: 2 kg for 1.000 kg ready feed for poultry – young animals

Consulting and least cost optimization of the ready feed with APC HM/HZ I 0,2% you will get from us directly or from our distributors.
