

natural feed additives

APC add. HM/HZ II 0,2%

Art.No. 1458

Natural feed additives for POULTRY

- ✓ Better and healthier intestinal mucosa and a significant better absorption of nutrients
- ✓ Clearly relief of Metabolism and liver
- ✓ Considerable reduction of protein
- ✓ Clearly relief of metabolism and liver
- ✓ Regulation of the pH value in the intestine

- ✓ Up to 50% reduction of ammonia and noxious gases
- ✓ Preserve the environment and nature
- ✓ Up to 20% less slurry

- ✓ Higher daily gain and better FCR
- ✓ Better health of the intestine = better health of the animals
- ✓ Drier stables – less mortality
- ✓ Stronger and thicker eggshells mean less broken eggs for layer production and heavier and more vital chicks in parent stock production

The Concept

- The usage of carefully selected clay minerals chosen out of their synergistic effects are the basic of the product APC HM/HZ II 0,2%.
- APC products are subjected to a special physical processing which results in an improvement of the surface of mucous membrane of animal's intestine. The result is a far better absorption of all nutrients.
- By using of APC HM/HZ II 0,2% the requirements of protein and minerals can be reduced and by that the metabolism and the liver of the animals are clearly relieved.
- A reduced input of nitrogen and phosphorus over the feed causes a reduction of N and P in the faeces. Additional ammonia and noxious gases are reduced up to 50 %!

usage:

2 kg for 1.000 kg ready feed for poultry

Consulting and least cost optimization of the ready feed with APC HM/HZ II 0,2% you will get from us directly or from our distributors.

package stability producer

30 kg bags or Big Bag
