

APC add. RZ LAC 80 g

Art.Nr. 1503

Nutrition supplement for cows

- ✓ improves mucous membranes from the rumen and intestine
- ✓ improved absorption from energy and protein – higher milk yield and higher milk protein content
- ✓ 5- 8% higher dry matter intake
- ✓ High acid puffer capacity
- ✓ well balanced supply of vitamins and trace elements plus chelates

- ✓ Up to 50% reduction of ammonia and noxious gases
- ✓ Preserve the environment and nature
- ✓ Up to 20% less slurry

- ✓ In the high lactation fulfils better the demand of nutrients
- ✓ Increased crude fibre intake (crude fibre input!) - ruminant adjusted rations
- ✓ fewer metabolic disorders – increased fertility
- ✓ more lactations per cow – increased life output

The Concept

- The usage of carefully selected clay minerals chosen out of their synergistic effects are the basic of the product APC RZ LAC 80 g.
- APC Subjected to a special physical processing which results in an improvement of the surface of mucous membrane of animal's intestine. The result is a far better absorption of all nutrients.
- By using of APC RZ LAC 80 g the requirements of protein and minerals can be reduced and by that the metabolism and the liver of the animals are clearly relieved.
- Therefore, a reduced input of nitrogen and phosphorus over the feed cause a reduction N and P in the faeces. Additional ammonia and noxious gases are reduced up to 50 %!

Usage: 80 g per cow daily in the lactation period

package 30 kg bags or Big Bag

stability 6 months by original closed packing

producer Austria – feed mixing corp. ERES Schöllerbacher,
A-4493 Wolfers (αAT 6024)
